Dec'r 3.—In the Senate:

Bill—Senator Campbell; Money Bill—Senator Ferguson; Order of the Commons Office Bill—Senator Blair. The Intercolonial Co. Bill, on motion of Senator Blair, was read a second time, and the Committee on Banking and Finance reported.

He stated that they had come for reference from the House to inquire into the right of the Hon. J. S. Macdonald, Attorney General of the Province, and the Hon. Christopher Dugas, Clerk of the Province of Quebec, to sit in the House of Commons, and he was glad to report that, in their opinion, the gentlemen had a right to sit in this House.

the Intercolonial Railway and Bay Company.

Carrier moved that Hon. John Macdonald be appointed to the public accounts, railways, banking and commerce Committee.

Mr. Macdonald, in answer to the question of Sir John A. Macdonald, moved into committee of the whole to amend the Act incorporating the Commercial Bank—Mr. Magill in the chair.

Mr. Harris, in moving the first clause of the bill, said:

...and a very important observation  
...sample of the Bill. It asserted  
...Commercial Bank was possessed  
...than sufficient to pay all its li-  
...full, if such assets were properly  
...and applied. The Committee  
...Bill was referred very properly  
...proof of this statement. From  
...entirely satisfactory to the Com-  
...id he thought it would be satis-

...under the provisions of the Bill.

under the provisions of the Bank of a Bank was compelled to make its payments for sixty days, absolutely lapsed. The House in the perilous position in which it placed, if, on the 21st day of the charter should be forfeited, the charter, therefore, provided that it should not lapse if the suspension payments were removed within the passing of this Act. It is

It simply provided that any amount which, since the 19th of October, 1900, had been paid in advance of its liabilities, should not be a part of its charter, if it was able to make the specified payments within 90 days of the passage of this Act. The bill was agreed to. The discussion took place. All the amendments to the bill were finally adopted, and it was ordered for a third reading on November 14, 1900.

tion of Sir John A. Macdonald went into committee of the whole resolution respecting the Inter-oceanic way.

Mr. A. Macdonald said it was to discuss whether the Road should be built, as that was provided for in the Union Act. In reference to the asking for power to raise a loan of £1,000,000, without the

guarantee, it was rendered necessary to provide for the guarantee. The Canadian government would raise a loan sufficient to build the road, and put it into good working order. It was important that the loan should be built as speedily as possible, in order to avoid any objection that might arise in England to a general imperial guarantee on account of the amount additional, the Canadian government had thought it fit to ask.

not fully sufficient to completely prevent any delay in securing Imperial guarantee. He would like the fullest discussion in this regard; but he intended to move a bill respecting the railway, and would ask the House to postpone action on the resolutions till the discussion would be incorporated, and after it was printed and read among members, there might be discussion on the whole subject.

John A. Macdonald stated that the Minister of Finance would present a financial statement, after which the Minister of Public Works would introduce a bill. The business of the House to the report respecting the north-west territory was then adjourned at half-past five.

# PROSPECTUS

The Wellington Gold Mining Company, OF MADOC, (LIMITED.)

To be Incorporated by Letters Patent under the provisions of the Act 27 and 28 Victoria, Chap. 23, and Amendments thereto.

Capital Stk., \$200,000, Divided into 40,000 Shares for \$5 Each, of which \$100,000 is reserved for Working Capital.

HON. JOHN CARLING, M.P. JOHN CRAWFORD, ESQ., Q.C., M.P. ADAM CROOKS, ESQ., Q.C. THOMAS LAILEY, ESQ., Merchant.

A. M. SMITH, ESQ., President Royal Canadian Bank. Manager and Superintendent, - RUGER R. FLETCHER, Mining Engineer.

Secy and Treas., - H. S. LEDYARD. Solicitors, - Messrs. McMURRAY & RAY. Bankers, - THE ROYAL CANADIAN BANK.

THIS Company is organized for the purpose of developing the mineral resources of ten acres upon the Richardson Ridge, being part of the West half of Lot Number Eighteen in the Fifth Concession of the Township of Madoc, and for the purpose of smelting or otherwise preparing for market the ore of all kinds of metals and minerals, together with the acquisition and disposal of all lands, mines and ores, that may be found of advantage to the interest of the Company.

The property of the Wellington Gold Mining Company of Madoc is situated upon the West end of the Richardson Hill, and a continuation of the Quartz lead, upon which the celebrated Richardson Mine is located, passing through the entire length of the property, and gives facilities for mining upon 580 feet along this lead.

Another Quartz lead extends through the entire length of the property, which is supposed to be a continuation of the vein upon which several mines on the Moore Farm are situated, namely the Eldorado, the Moore Mine, the Royal Canadian and Kootenay Mines, and the property is bounded on the East side by the Richardson Farm, and the Territory of the Union Mining Company.

The Wellington Gold Mining Company possesses many facilities for mining operations; it lies upon a hill of such elevation that no trouble will be experienced from water, and upon the North side there is every convenience for a good dumping ground.

The discovery of the Richardson Mine was made owing to the appearance of purple copper ore upon the surface, and there are portions of the Wellington Company's property upon which are even richer shows of copper ore than at the Richardson; and as this property is situated upon the same hill as the Richardson Mine, having the same geological formation, and the same quartz lead continuing through it, there is no reason to doubt that the property of the Wellington Company will, when developed, reveal in richness even the celebrated Richardson Mine.

Mr. Benjamin Lombard, of the Richardson Mining Company, states that he caused two assays to be made of samples from the shaft now sunk upon the property of the Wellington Company, to the depth of twelve feet, which yielded respectively \$262 of Gold and Silver to the ton, and from five pounds of average ore taken from the shaft, Mr. Wyckoff, Assayer of Madoc, returned \$22 of Gold and Silver to the ton, and as these assays were all made from specimens taken comparatively near the surface, no stronger evidence need be adduced of the exceeding richness of the leads upon this location.

It is proposed to continue the shaft already commenced, and also to run a tunnel through the hill, which will at once show the extent and number of mineral veins traversing the property, and thereby give great facilities for working them, and obtaining the ore therefrom in large quantities.

Developments will speedily be made upon the hill in addition to the work contemplated by the Wellington Company, as the Richardson Ridge Gold Mining Company are about to sink a shaft upon adjoining territory.

One DOLLAR PER SHARE to be payable on application, and the remaining \$4 per Share in four equal monthly payments from the date of this Prospectus.

Applications for Stock and other communications to be addressed to the Secretary, H. S. LEDYARD, 74 Yonge Street, Toronto.

Subscriptions for Stock will be received by the undersigned, at his Office, Intelligence Building, Front Street, Belleville.

J. PARKER THOMAS, Barrister.

PROSPECTUS  
The Wellington Gold Mining Company,

OF MADOC, (LIMITED).  
To be incorporated by Letters Patent under the provisions of the Act 27 and 28 Victoria,  
Chap. 53, and amendments thereto.

Capital Stock, \$200,000, Divided into 40,000 Shares for \$5 Each,  
of which \$100,000 is reserved for Working Capital.

DIRECTORS.  
HON. JOHN CARLING, M.P. JOHN CRAWFORD, ESQ., Q.C., M. P.  
ADAM CROOKS, ESQ., Q.C. THOMAS LAILEY, ESQ., Merchant.  
A. M. SMITH, ESQ., President Royal Canadian Bank.

Manager and Superintendent, — HUGH R. FLETCHER, Mining Engineer.  
Soley and Treas., — H. S. LEDYARD, Solicitors, — Messrs. McMURRAY & RAY,  
Bankers, — THE ROYAL CANADIAN BANK.

THIS Company is organized for the purpose of developing the mineral resources of ten  
acres upon the Richardson Ridge, being part of the West half of Lot Number Eighteen  
in the Fifth Concession of the Township of Madoc, and for the purpose of smelting or  
otherwise preparing for market the ores of all kinds of metals and minerals, together with  
the acquisition and disposal of all lands, mines and ores, that may be found of advantage  
to the interest of the Company.

The property of the Wellington Gold Mining Company of Madoc is situated upon the  
West end of the Richardson Hill, and a continuation of the Quartz lead, upon which the  
celebrated Richardson Mine is located, passes through the entire length of the property,  
and gives facilities for mining upon 800 feet along this lead.

Another Quartz lead extends through the entire length of the property, which is sup-  
posed to be a continuation of the vein upon which several mines on the Moore Farm are  
situated, namely the Eldorado, the Moore Mine, the Royal Canadian and Koolney Mines,  
and the property is bounded on the East side by the Richardson Farm, and the Territory of  
the Union Mining Company.

The Wellington Gold Mining Company possesses many facilities for mining operations;  
it lies upon a hill of such elevation that no trouble will be experienced from water, and  
upon the North side there is every convenience for a good dumping ground.

The discovery of the Richardson Mine was made owing to the appearance of purple cop-  
per ore upon the surface, and there are portions of the Wellington Company's property upon  
which are even richer shows of copper ore than at the Richardson; and as this property is  
situated upon the same hill as the Richardson Mine, having the same geological formation,  
and the same quartz leads continuing through it, there is no reason to doubt that the  
property of the Wellington Company will, when developed, rival in richness even the  
celebrated Richardson Mine.

Mr. Benjamin Lombard, of the Richardson Mining Company, states that he caused two  
drills to be made of samples from the above now sunk upon the property of  
the Wellington Company, to the depth of twelve feet, which yielded respectively \$36  
and \$62 of Gold and Silver to the ton, and from five pounds of average ore taken from the shaft,  
Mr. Wyckoff, Assayer of Madoc, returned \$22 of Gold and Silver to the ton, and as these  
figures were all made from specimens taken comparatively near the surface, no stronger  
evidence need be adduced of the exceeding richness of the leads upon this location.

It is proposed to continue the shaft already commenced, and also to run a tunnel through  
the hill, which will at once show the extent and number of mineral veins traversing the  
property, and thereby give great facilities for working them, and obtaining the ore there-  
from in large quantities.

Developments will speedily be made upon the hill in addition to the work contemplated  
by the Wellington Company, as the Richardson Ridge Gold Mining Company are about to  
sink a shaft upon adjoining territory.

One DOLLAR PER SHARE to be payable on application, and the remaining \$4 per Share in  
four equal monthly payments from the date of this Prospectus.

Applications for Stock and other communications to be addressed to the Secretary,  
H. S. Ledyard,  
74 Yonge Street, Toronto,  
16

Subscriptions for Stock will be received by the undersigned, at his Office, Intelligencer  
Building, Front Street, Belleville.
